

Source	Species	Pot Size	Item Description
C	Abutilon 'Dark Red' 2L	2L	Chinese lantern. Medium sized perennial shrub . Large bell shaped dark red flowers flowers. Very ornamental. H 2m.
C	Abutilon 'Orange' 2L	2L	Chinese lantern. Medium sized perennial shrub . Large bell shaped orange flowers flowers. Very ornamental. H 2m.
C	Abutilon 'Pink' 2L	2L	Chinese lantern. Medium sized perennial shrub . Large bell shaped pink flowers flowers. Very ornamental. H 2m.
C	Abutilon 'Red' 2L	2L	Chinese lantern. Medium sized perennial shrub . Large bell shaped red flowers flowers. Very ornamental. H 2m.
C	Abutilon 'Yellow' 2L	2L	Chinese lantern. Medium sized perennial shrub . Large bell shaped yellow flowers flowers. Very ornamental. H 2m.
S/D	Acaena inermis 'Purpurea'	7cm	NZ native Burr. Alpine groundcover. Forms a carpet of dusky plum-purple leaves with feathery texture. Edging or rock garden. H 5-10cm Spread 30-60cm.
S/D	Acaena 'Novae Zelandiae'	7cm	NZ native Burr. Forms a carpet of dusky green to bronze leaves with feathery texture. Tiny flowers in clusters and balls of sticky seeds Edging or rock garden. H 5-10cm Spread 30-60cm.
S	Aciphylla aurea	7cm	Golden speargrass . Medium sized speargrass. Golden yellow leaves. Central flower stalks rising 1m. 40cm. Needs well drained soil, not too dry. H 1m.
S	Aciphylla dieffenbachii	7cm	Soft speargrass. Ornamental lemon-yellow flower stalks to 70cm tall. Soft foliage. requires a cool position, good drainage, adequate moisture. H 0.5-1m.
S	Aciphylla glaucescens	7cm	Blue spaniard. Glaucous grey/green leaf stems. Striking flower spike. H 1m.
D	Agapanthus `Streamline`	7cm	A dwarf form with a very long flowering season. Hardy, sun or shade will tolerate dry conditions. Blue flowers. H 50cm.
D	Agapanthus 'Finnline'	7cm	Striking silvery/grey foliage with white edge. Clumpy white flowers on short stems. superb edging or container plant. H 30cm.
D	Agapanthus 'Gails Sapphire'	7cm	Deepest blue indigo flowers strappy green leaves. Great cut floer. H 1m.
S	Agapanthus orientalis 'Blue'	7cm	Tall, blue flowered form. Wide strappy green leaves. H 1m.
S	Agapanthus orientalis 'White'	7cm	Tall, white flowers. Strappy green leaves. H 1m.
D	Agapanthus 'Peter Pan'	7cm	Dwarf cultivar. Attractive blue flowers with narrow green foliage. Requires some moisture through summer. H 50cm
D	Agapanthus 'Sea Foam'	7cm	Dwarf cultivar. Pure white flowers green foliage. Frost hardy. Requires some moisture through summer. H 60cm.
D	Agapanthus 'Silver Baby'	7cm	Dwarf free flowering with broad leaves and silvery white flowers edged ice blue. H 30cm.

Source	Species	Pot Size	Item Description
D	Agapanthus 'Snowball'	7cm	Dwarf free flowering with ball of white flowers. Very long flowering season. Self sterile. H 40cm.
D	Agapanthus 'Tinkerbell'	7cm	Dwarf variegated cream and green form. Blue flowers. H 50cm.
S	Alectryon excelsus	7cm	Titoki. Small evergreen spreading tree with shining dark green leaves with jet-black seeds and bright red fruit that attract birds. Tender to frosts below -4 C. H 6m.
C	Aloysia triphylla	7cm	Lemon Verbena. Aromatic shrub with lemon scented leaves and spikes of lavender/purple flowers. H 2m.
S	Anemanthele lessoniana	5cm	Wind grass. Flowing grass with leaf colours of red, orange, brown and yellow. A haze of purplish seed heads late summer. naturally a plant of dry shade ideal under trees. H 1m.
S	Apodasmia similis	5cm	Oi Oi. Native jointed reed with fine grey-green leaves and brownish bracts at the joints. Hardy. H 1m.
S	Arbutus unedo	7cm	Strawberry tree. Evergreen with white bell-shaped flowers, red stringy bark and laurel-like leaves. Orange/red edible fruit great for birds H 8m.
S	Aristotelia serrata	7cm	Wineberry. Small tree suited to a sheltered position. White flowers followed by fruit on females. Quick growing, only moderately frost hardy. H 5m.
S	Aristotelia X fruserrata	7cm	Wineberry. Frost hardy holds leaves well. berries good for birds. H1-3cm.
S	Arthropodium cirratum	7cm	Renga Lilly.A fleshy green leaved plant which is very useful for under planting.Tolerates dry and shade. Attractive white flowers on stalks. H 1m.
S	Arthropodium 'Matopouri Bay'	7cm	Renga Lilly. Broad fleshy green leaves useful for under planting.Tolerates dry and shade. Attractive white flowers on stalks. H 1m.
S	Astelia chathamica	7cm	Silver Spear. Silvery green flax like leaves. Orange clusters of berries with in leaves. H 1.2m.
S	Astelia chathamica 14cm	14cm	Silver Spear. Silvery green flax like leaves. Orange clusters of berries with in leaves. H 1.2m.
S	Astelia fragrans	7cm	Bush astelia.Arching flax like leaves. Ideal for planting in shade but will also tolerate sun if not too dry. Orange berries on females. Intolerant of sever frost. H 1m.
S	Astelia fragrans 14cm	14cm	Bush astelia.Arching flax like leaves. Ideal for planting in shade but will also tolerate sun if not too dry. Orange berries on females. Intolerant of sever frost. H 1m.
S	Astelia nervosa	7cm	Mountain Astelia. Flaxlike silvery green/grey long narrow leaves. H 1m.
S	Astelia nervosa 14cm	14cm	Mountain Astelia. Flaxlike silvery green/grey long narrow leaves. H 1m.
C	Atherosperma moschatum	7cm	Black sassafras. Evergreen tree. Narrow, long, finely toothed leathery leaves, aromatic when crushed. Creamy-white scented flowers. H10-30m.

Source	Species	Pot Size	Item Description
S	Austroderia fulvida	5cm	North Island toetoe. A relatively small growing toe toe. Graceful habit, white plumes. Damp to dry soils. 2m at flowering. H 2m.
S	Austroderia richardii	5cm	South island toetoe. A large NZ native grass with stunning arched white flower plumes mid summer. Tolerates wet, dry, wind, frost and coastal conditions. Quick growing. including plumes. H 3m.
C	Berberis ' Little Favorite'	7cm	Barberry. Dwarf compact low growing. Red/purple foliage. Thorny branches. H 50cm.
C	Berberis 'Atropupurea'	7cm	Barberry. Deep purplish brown turning bronze black. Thorny branches. H 1.5m
C	Berberis 'Kobold'	7cm	Barberry. Small bun shape with green foliage turning orange/red in autumn red berries, hardy, deciduous . H 45cm.
C	Berberis thunbergi 'Aurea'	7cm	Barberry. Deciduous prickly shrub with yellow-lime leaves, best in part shade. H 1m.
C	Berberis thunbergi 'Rosy Glow'	7cm	Barberry. Pink and red variegated Barberry. Hardy and adaptable small shrub, can be trimmed as desired. Evergreen. H1m.
C	Brachyglottis greyi	7cm	Daisy bush.Spreadinding shrub with soft grey foilage and yellow daisy flowers. Trim after flowering. Wind and drought tolerant, good costal plant. H 1.5m.
S	Brachyglottis monroi	7cm	Monro's daisy, Yellow flowering native shrub. The leaves are spear-shaped, olive green above and white below with crinkley toothed edges. Compact. H 1m.
C	Bulbinella angustifolia	7cm	Golden star lily/Maori onion. Narrow brownish-green leaves, bright yellow flower spikes. Sun or light shade, damp soil. H 30-60cm.
C	Buxus 'Green Gem'	5cm	Boxwood. Slow growing compact bush. Shiny green, round leaves. Great for hedging and topairy. Resistant to box blight. Very hardy. H 1m.
C	Buxus sempervirens	5cm	English box. Superb hedging plant. Makes a tight, neat hedge which can be trimmed very small. Hardy for almost amy situation. H 1m.
C	Buxus sempervirens 12cm	12cm	English box. Superb hedging plant. Makes a tight, neat hedge which can be trimmed very small. Hardy for almost amy situation. H 1m.
C	Buxus sempervirens`Variegata`	5cm	Varigated English boxwood. A variegated form of box. Dark green foliage with creamy white margins an excellent small tight hedge plant. Trim as desired. H 1m.
C	Buxus 'Suffruticosa'	5cm	Dwarf English box, Excellent dwarf bushy hedge. Neat and dense, can be kept less than 30cm high. Hardy. H 50cm.
C	Buxus 'Suffruticosa' 12cm	12cm	Dwarf English box, Excellent dwarf bushy hedge. Neat and dense, can be kept less than 30cm high. Hardy. H 50cm.
	Calocephalus ' Silver Nugget'	7cm	Tiny silver grey leaves pressed tight against the stems to form a twisted and contorted little cushion. H 1m
S	Calystegia soldanella	7cm	Shore convolvulus. Prostrate perennial vine which grows in beach sand. Pink flowers with white stripes. H 60cm.

Source	Species	Pot Size	Item Description
S	Carex buchananii	5cm	Leatherleaf sedge. Colourful copper/bronze dense erect grass. Best in full sun. H 60cm.
S	Carex comans	5cm	Longwood tussock. Dense tufts of pale yellow/green thread like foliage,soft weeping habit. H 40cm
S	Carex comans 'Frosted Curls'	5cm	Hair sedge. A small flowing lime green grass with bleached curled tips. Attractive border plant in an open position. H 40cm.
S	Carex comans Red	5cm	Grass/Sedge. Small grass with arching red bronze foliage. Good for edges or borders. Requires good drainage. Very wind tolerant. Evergreen. Hardy. H 40cm.
S	Carex dipsacea	5cm	Teasel sedge. Arching green or bronze fine-leaved tussock from the mountains. Densely tufted. Needs adequate moisture. Shade tolerant. Evergreen. Hardy to both wind and frost. H 75cm
S	Carex dissita	5cm	Forest sedge. Wide ribbed bright green leaves with arching habit and black contrasting seed spikes. H 50cm.
S	Carex flagellifera	5cm	Glen Murray tussock. Graceful weeping grass with reddish-brown foilage. Hardy, tolerates dry to damp soil, sun or light shade. H 40cm.
S	Carex germinata	5cm	Wetland cutty grass. Robust native sedge, green leaves with a sharp edge, wide spreading habit for wetland areas. H 50-100cm.
S	Carex maorica	5cm	Maori sedge. Light green upright arching clumps. Likes damp areas can be planted into shallow water. H 1m.
S	Carex pumila	5cm	Sand sedge. Blue-green tufts. Coastal sand, usually where damp, and inland lake edge. H 30cm.
S	Carex secta	5cm	Makura Sedge. Large clumps of graceful green foilage. Fast growing. Stands wet or dry. H 1m.
S	Carex solandrii	5cm	Solander's Sedge. Graceful weeping yellow/green leaves, dark seed heads. H 40cm.
S/D	Carex tenuiculmis	5cm	Slender wine sedge. Attractive red bronze foliage. Likes sunny damp conditions. Hardy. H 70cm.
S/D	Carex testacea	5cm	Orange sedge. An attractive grass with rich-green and brick-orange foliage. Best colour in full sun. H 50cm.
S	Carex trifida	5cm	Mutton-bird Sedge. Dark green upright sedge. attractive blue leaf undersides and brown seed heads. Prefers some moisture and enjoys light shade. H 90cm.
S	Carex virgata	5cm	Swamp sedge. Upright green grass with erect seed heads. H 70cm
C	Carmichaelia australis	7cm	Common broom. New Zealand native broom , small purple pea like flowers summer H 3-4m.
S	Carpodetus serratus	7cm	Marbleleaf. Tree with attractive 'marbled' leaves. Tangled juvenile foliage. White flowers are followed by purple fruit, which ripen to black. H 10m

Source	Species	Pot Size	Item Description
C	Ceanothus 'Blue Cushion'	7cm	Californian lilac. Hardy groundcover with masses of bright blue flowers spring/summer H 1m.
C	Ceanothus roweanus	7cm	Californian lilac. Deep brilliant blue flowers almost cover the small deep green leaves. Frost and drought hardy. Trims well. H 1.5m
C	Ceanothus 'Yankee Point'	7cm	Californian lilac. A vigorous and hardy spreading shrub with dark blue flowers. Trim as desired. H 1.2m
C	Chamaecyparis lawsoniana 'Stewartii'	7cm	Lawson cypress. Bright gold specimen tree, erect and pyramidal. Foliage resistant to tip burn. Full sun. Good drainage. H 4m
S	Chamaecytisus palmensis	7cm	Tree lucerne. Evergreen small fast growing tree with white pea like flowers. H 4m
S	Chionochloa conspicua	5cm	Plumed tussock grass. An alpine tussock, sharp green blades erupt into thick, strong, arching stems which produces huge feathery flower heads. H 1.5m.
S	Chionochloa flavicans	5cm	Dwarf toetoe .A striking tussock with flowing green foliage and weeping flower-heads in summer. H 1m.
S	Chionochloa rigida	5cm	Narrow-leaved snow tussock. Attractive flowing habit. Mature plants have golden-bronze hue. Flowers above the foliage. Not for very hot, dry situations, but otherwise very hardy. H 1m.
S/D	Chionochloa rubra	5cm	Red tussock. Striking, large red tussock. H 1m.
S	Chionochloa rubra RX90	9cm	Red tussock. Striking, large red tussock. H 1m.
C	Choisya ternata	7cm	Mexican orange blossom. A dense, hardy evergreen shrub. Fragrant white flowers spring through summer. Can be trimmed. H 2m.
C	Choisya ternata 'Aztec Pearl'	7cm	Mexican orange blossom. Narrow leaved form, evergreen . Fragrant white star shaped flowers in late spring. H 1.8m.
C	Choisya ternata 12cm	12cm	Mexican orange blossom. A dense, hardy evergreen shrub. Fragrant white flowers spring through summer. Can be trimmed. H 2m.
C	Cistus 'Bennetts White"	7cm	Rock rose. Coarse green foliage has papery white flowers with bright yellow centres. Sun. H 2m.
C	Cistus x skanbergii	7cm	Rock rose. Grey-Green leaves with pink crepe-like flowers. Long flowering. Forms dense wide shrub. H 80cm.
S/C	Clanthus puniceus 'Albus'	7cm	Kaka beak. Evergreen shrub with green fern like foliage and ivory white parrotbeak flowers. Sun good drainage. H 2m.
S/C	Clanthus puniceus 'Roseus'	7cm	Kaka beak. Evergreen shrub with green fern like foliage and pink-red parrotbeak flowers. Sun good drainage. H 2m.
C	Coleonema 'Sunset Gold'	7cm	Golden breath of heaven. Low spreading shrub, dense bright golden aromatic foilage. Pale pink flowers on slender stems spring. Best in full sun. Can be trimmed. H 75cm.

Plants in Production

Source	Species	Pot Size	Item Description
C	Coleonema 'Sunset Gold' 12cm	12cm	Golden breath of heaven. Low spreading shrub, dense bright golden aromatic foilage. Pale pink flowers on slender stems spring. Best in full sun. Can be trimmed. H 75cm.
C	Convolvulus Cneorum	7cm	Silver Bush. Evergreen low growing perennial. Compact rounded bush with silvery/grey foliage and masses of white trumpet flowers in summer. H 40cm.
C	Coprosma 'Hawera' 12cm	12cm	Ground cover coprosma. Hardy native ground cover with small narrow green leaves forms a tight mat. H 30cm x 1.2m.
C	Coprosma acerosa	7cm	Sand coprosma. This form mounds itself into a small tangled brown shrub. Beautiful blue drupes in autumn. Tolerates frost, wind, sun and drought. H.50cm.
C	Coprosma areolata	7cm	Thin-leaved coprosma: Bushy tall shrub, thin pointed pale green leaves has dark Blue/purple fruit H 3-5m
C	Coprosma 'Beatsons Gold'	7cm	Looking glass plant. Colourful, small gold and green leaves. Bushy and dense, trims well, ideal hedge. Sun or light shade. H 1.5m.
C	Coprosma 'Brunnea'	7cm	Ground cover coprosma. Spreading, narrow leafed sand shrub with cushiony mass of brownish interlaced branches. Tiny white flowers that may be followed by blue berries. Very hardy. H 20cm.
C	Coprosma cheesmanii	7cm	Low growing coprosma which often fruits profusely with bright orange/red berries. Will grow on exposed sites. Very hardy
C	Coprosma 'Coppershine'	7cm	Mirror bush. Shining leaves with brown shading. Plant in full sun. Drought and frost hardy. H 1.2m
S	Coprosma crassifolia	7cm	Coprosma. Stiffly branched with small round dark green leaves. Needs dry conditions. H 1-2m
C	Coprosma depressa	7cm	Mingimingi. Groundcover with small dark green/red leaves. H 40cm x 1.2m.
C	Coprosma 'Flat Freddy'	7cm	Ground cover coprosma. Long branches hugging the ground. small green/brown leaves, dark branches with cream tips. Can stand light foot traffic. Tough hardy ground cover. H 15cm x1m.
C	Coprosma 'Hawera'	7cm	Ground cover coprosma. Hardy native ground cover with small narrow green leaves forms a tight mat. H 30cm x 1.2m.
C	Coprosma 'Hot Chocolate'	7cm	Coprosma. Large glossy wavy leaves a deep chocolate colour. Can be trimmed or hedge as required. Tolerates quite dry conditions. H 2m.
C	Coprosma kirkii	7cm	Groundcover coprosma. Vigorous mounded bush prostrate at edges. Small green leaves Plant in full sun with good drainage. H 1m
C	Coprosma kirkii 'Variegata'	7cm	Groundcover coprosma. Vigorous mounded bush prostrate at edges. Small green/cream varigated leaves Plant in full sun with good drainage. H 70cm
C	Coprosma 'Lobster'	7cm	Coprosma. Red/orange stems with interlacing branchlets, light blue berries. Dense shrub. Very hardy. H 1.5m
S	Coprosma lucida	7cm	Shining karamu. A glossy green leaved species which grows as a dense shrub or small tree. Excellent for coastal sites tolerating salt spray but not severe frost when young. H 4-6m

Source	Species	Pot Size	Item Description
c	Coprosma 'Middlemore' seedling	7cm	Coprosma. Shiny round green leaves. Great for hedging. Frost and drought hardy. H 2m.
S	Coprosma paviflora	7cm	Coprosma. Twiggy foliage with stiny green leaves. Frost and drought hardy. H 2m.
S	Coprosma 'Pride'	7cm	Coprosma. Variegated foilage with red, green bronze and yellow intensifying in winter. Frost and drought hardy. Plant in full sun. H 2m.
S	Coprosma propinqua	7cm	Mingimingi. Erect habit rather than prostrate. Greyish brown interlacing branches. Translucent pale blue to darker blue berries. H 2 m.
S	Coprosma propinqua 12cm	12cm	Mingimingi. Erect habit rather than prostrate. Greyish brown interlacing branches. Translucent pale blue to darker blue berries. H 2 m.
C	Coprosma prostrata	7cm	Groundcover coprosma. Evergreen semi prostrate shrun forming a raised mound with glossy green leaves tiny white flowers spring. H 45cm x 1m.
C	Coprosma 'Red Rocks'	7cm	Groundcover coprosma. Prostrate with red/orange intertwining branches and tiny narrow leaves. H 30cm x 1m.
C	Coprosma 'Red Rocks' 12cm	12cm	Groundcover coprosma. Prostrate with red/orange intertwining branches and tiny narrow leaves. H 30cm x 1m.
S	Coprosma repens	7cm	Taupata. Coastal small tree tolerating salt and wind. Glossy green leaves with orange berries. Can be trimmed into a hedge. Intoloerant of severe frost. H 5m.
S	Coprosma rhamnoides	7cm	Twiggy coprosma. Tight dense twiggy rounded shaped shrub with very small round light green leaves and dark red berries. H 1.5m.
S	Coprosma rigida	7cm	Divaricating Coprosma typically found on shady sites, dampfruit can be white, yellow or orange. H 3m.
S	Coprosma robusta	7cm	Native Karamu. Shiny green leaves with orange/red berries in clusters along stems. Fast growing. H 2-5m.
S	Coprosma rotundifolia	7cm	Round-leaved coprosma. Dull green splotched purple, rounded or heart-shaped leaves. Tangled shrub with red berries. H 3-5m.
C	Coprosma 'Roys Red'	7cm	Coprosma. Small rounded glossy leaves turning a rich bronze-red in winter. Hardy, trim as required, great for hedging. H 2m.
S	Coprosma rubra	7cm	Mikimiki. Hardy evergreen reddish brown bark . Well drained sites. H 3m.
S	Coprosma rugosa	7cm	Needle leaved mountain coprosma. Stiff erect shrub with orang/chocolate brown tinge has small pale berries. H 3m.
C	Coprosma 'Taiko'	7cm	Groundcover coprosma. Hardy prostrate shrub with dark green foliage , blue berries in autumn. H 30cm x 1.2m.
C	Coprosma 'Taylorii'	7cm	Mikimiki. A tough woody upright shrub with small green leaves. White fruits autumn. Very hardy. H 2m.

Source	Species	Pot Size	Item Description
S	Coprosma virescens	7cm	Coprosma. Tangled almost leafless foliage glows coppery. Tolerates dry and wind. H 2.5m.
S	Coprosma virescens 12cm	12cm	Coprosma. Tangled almost leafless foliage glows coppery. Tolerates dry and wind. H 2.5m.
S	Cordyline australis	7cm	Cabbage tree. Very hardy tolerates dry hillsides to damp low areas. Multi trunked with tufts of green flax like leaves and large sweetly scented flower heads. H 10m.
S	Cordyline australis 14cm	14cm	Cabbage tree. Very hardy tolerates dry hillsides to damp low areas. Multi trunked with tufts of green flax like leaves and large sweetly scented flower heads. H 10m.
S	Cordyline australis`Purpurea`	7cm	Cabbage tree. Hardy variation with purple colouring. Accent plant, looks great in tubs. H 7m.
S	Cordyline banksii	7cm	Forest cabbage tree. Lower growing, longer broader green leaves. H 4m.
S	Cordyline indivisa	7cm	Mountain cabbage tree. Broad blueish green long leaves. With red central vein at base. Small blueish fruits. H 8m.
C	Cornus alba 'Elegantissima'	7cm	Varigated dogwood. White /green leaves. Red /Purple stems in Winter. H 1.5m.
C	Cornus alba 'Siberica' 12cm	12cm	Red-barked dogwood. A spreading shrub with dark green leaves, good autumn colour. Brilliant red stems in winter. clusters of small white flowers in summer. Sun to semi-shade. Hardy. H 2m.
C	Cornus alba 'Sibirica'	7cm	Red-barked dogwood. A spreading shrub with dark green leaves, good autumn colour. Brilliant red stems in winter. clusters of small white flowers in summer. Sun to semi-shade. Hardy. H 2m.
C	Corokia 'Bronze King'	7cm	Bronze corokia. Dark green-bronze foliage, deepening in winter. Yellow starry flowers, red berries. Excellent as a hedge or specimen in coastal, dry or frosty. H 2m.
C	Corokia buddleoides	7cm	Korokio. Narrow long green to bronze leaves. Orange to red fruit late autumn. Tolerates drought and coastal conditions flourishes in shade. H 3m.
S	Corokia cotoneaster	7cm	Wire-netting bush. Tangled evergreen divaricating shrub, Small green grey leaves black stems with bright red,yellow or orange berries, yellow starry flowers. Good hedging. H 3m.
S	Corokia cotoneaster 12cm	12cm	Wire-netting bush. Tangled evergreen divaricating shrub, Small green grey leaves black stems with bright red,yellow or orange berries, yellow starry flowers. Good hedging. H 3m.
C	Corokia 'Frosted Chocolate'	7cm	Bronze corokia. A handsome, lush, large-leafed chocolate brown shrub with contrasting red berries. Colour intensifies in winter. Good drainage. Sun. Great hedging. H 3m.
C	Corokia 'Geenty's Green'	7cm	Green corokia. Corokia hybrid with large, light olive-green leaves and an upright form. Yellow flowers in spring followed by red berries. Trims well. H 2m.
C	Corokia 'Geenty's Green' 12cm	12cm	Green corokia. Corokia hybrid with large, light olive-green leaves and an upright form. Yellow flowers in spring followed by red berries. Trims well. H 2m.
C	Corokia Hybrid	7cm	Bronze corokia. Bronze leaves, yellow starry flowers, red berries. Similar to Corokia 'Red Wonder'. H 2m.

Plants in Production

Source	Species	Pot Size	Item Description
C	Corokia 'Sunsplash'	7cm	Variegated corokia. Green/yellow variegated leaves with masses of bright red berries autumn. Best in a sunny position, can be trimmed as desired. H 2m.
C	Corokia x virgata	7cm	Green corokia. Upright densely branched shrub. Leaves green all year round. H 2m.
C	Corokia 'Yellow Wonder'	7cm	Yellow-berried corokia. Upright densely branched shrub. Olive green, lance-like leaves and bright-yellow berries. Good hedging. Hardy. H 2m.
C	Cotinus coggygria 'Velvet Cloak'	7cm	Smoke bush. Shrub or small tree. Deep purple rounded leaves with purple wispy plumes in summer. H 2m.
C	Cupressus Glabra 'Blue Ice'	7cm	Blue smooth Arizona cypress. Conical shaped conifer with blue grey needle like foliage. H 5m.
C	Cupressus leylandii 'Castlewellan Gold'	7cm	Golden Leyland cypress. Golden yellow foliage especially on new growth in spring. Excellent specimen. Makes dense hedge. H 25m
C	Cupressus Leylandii 'Haggerston Grey'	7cm	Leyland cypress. Fast growing, excellent shelter. Grey/green foliage, Tolerates drier sites. H 30m.
C	Cupressus leylandii 'Leighton's Green'	7cm	Leyland cypress. Rich green leaves. Dense even growth, Fast growing. H 30m.
C	Cupressus leylandii 'Robinsons Gold'	7cm	Leyland cypress. A tough yellow conifer suited for shelter or hedging. Tolerates dry soil, frost. Quick growing. H 10-30m.
C	Cupressus leylandii 'Ferndown'	7cm	Leyland cypress. Light green foliage with narrow form and pendulous branches. Excellent shelter. H 10-30m.
C	Cupressus leylandii 'Naylor's Blue'	7cm	Leyland cypress. Blue/green foliage with lighter branching narrow form. H 30m.
C	Cupressus leylandii 'Stapehill'	7cm	Leyland cypress. Narrow lightly- branched shelter tree with green foliage. Drought tolerant . Hardy. H 30m.
S	Cyperus ustulatus	5cm	Giant umbrella sedge. Vigorous native sedge grows in clumps of deep olive/green leaves with very sharp edges. Dark-brown seed heads are on top of a tall triangular stem. H 1m.
S	Dacrycarpus dacrydoides	7cm	Kahikatera, White Pine. Tallest growing Native New Zealand tree. This magnificent coniferous tree features handsome mature foliage, attractive buttressed roots and orange/red seeds. H 50m.
S	Dacrycarpus dacrydoides 12cm	12cm	Kahikatera, White Pine. Tallest growing Native New Zealand tree. This magnificent coniferous tree features handsome mature foliage, attractive buttressed roots and orange/red seeds. H 50m.
S	Dianella nigra	7cm	Turutu, Blueberry; Flax like plant ideal for growing in shady positions. White flowers on stalks followed by purple-blue fruits. H 60cm.
S	Dierama pendulum 'Pink'	7cm	Angels fishing rod. Linear erect basal leaves 1m long with pendulous stems holding bell shaped pink flowers. H 1.2m.
S	Discaria toumatou	7cm	Matagari. Tangle branched, extremely thorny shrub or small tree with small leathery leaves close to thorns. Flowers are white and inconspicuous, but sweetly fragrant. Nitrogen-fixer. H 4m.

Plants in Production

Source	Species	Pot Size	Item Description
D	Disphyma australe	7cm	Native ice plant. Fast growing creeping coastal succulent with glaucous green leaves and pink to white flowers. H 20cm x1m
S	Dodonaea viscosa	7cm	Green ake ake. Attractive, fast-growing small tree with green foliage. Ornamental papery flower clusters in summer. Tolerates salt winds and dry conditions. Great hedge or tall coastal shelter. H 4-7m.
C	Dodonaea viscosa variegata	7cm	Variegated ake ake. White and green variegated leaves. H 4m
S	Dodonaea viscosa `Purpurea`	7cm	Purple ake ake. Upright growing small tree purple foliage. Pink papery flowers. Drought and wind hardy, withstands coastal conditions. Dislikes hard frost or poor drainage. H5m.
C	Drimys winteri	7cm	Winter's bark. Evergreen small tree has large green leathery aromatic leaves with silvery underside - creamy white flowers. Coastal. Free draining moist soil. H 6m.
C	Elaeagnus x ebbingei	7cm	Silverberry. A dense, fast growing upright shrub with glossy dark green leaves. Highly scented white flowers in autumn followed by orange-red edible fruit. Great hedging. Hardy. H 2m.
C	Elaeagnus x ebbingei 12cm	12cm	Silverberry. A dense, fast growing upright shrub with glossy dark green leaves. Highly scented white flowers in autumn followed by orange-red edible fruit. Great hedging. Hardy. H 2m.
S	Elaeocarpus hookerianus	7cm	Pokaka. Attractive interlaced juvenile form, maturing with larger, olive-green serrated leaves. White flowers and purple berries attract bees and birds. H 10m.
C	Eleocharis acuta	RX90	Common spike rush wetland plant. Dense strands of upright mid - dark green cylindrical stems, small cream to brown spikes at tip. Hardy. H 60cm.
C	Erica 'Ruby Shepherd'	7cm	Compact habit with brilliant deep red/pink flowers in autumn. H 60cm.
C	Eriostemon myoporoides	7cm	Wax flower. Evergreen grey/green aromatic leaves with pink buds opening to star like waxy white flowers in spring. Part shade. good drainage. H 2m.
C	Escallonia `Appleblossom`	7cm	Pink escallonia. Glossy, deep green oval leaves and masses of pinkish flowers late spring through summer. Very hardy. Can be trimmed. H 1.5m - 2m.
C	Escallonia 'Field Scarlet'	7cm	Scarlet escallonia. An extremely hardy and adaptable shrub or hedging plant. Glossy green foliage, masses of scarlet flowers summer. H 3m.
C	Escallonia 'Macrantha'	7cm	Red escallonia. Hardy small shrub large glossy green leaves, masses of rose-crimson flowers. Can be hedged or trimmed as desired. Tolerates cold and dry conditions. H 3-4m.
C	Escallonia 'Pink Pyramid'	7cm	Pink escallonia. Hardy fast growing evergreen. Attractive foliage, new growth tinted bronze, clusters of pink flowers summer-autumn. Trims well. H 2m.
C	Escallonia 'Red Elf'	7cm	Red escallonia. Neat compact habit, glossy green foliage that always looks good and tubular reddish flowers. Trims well. H 1.3m.
C	Escallonia 'White Profusion'	7cm	White escallonia. Fast growing, shiny green leaves, profusion of white flowers tinged pink, spring to autumn. Great for hedging. H 2m.
C	Euonymus 'Emerald Green'	7cm	Neat compact evergreen shrub with densely growing glossy green foliage, ideal dwarf hedging. H 50cm.

Source	Species	Pot Size	Item Description
C	<i>Euphorbia glauca</i>	7cm	Shore spurge. Creeping rhizome from which red stems bearing narrow oblong blue-grey leaves. Contrasting maroon coloured bracts surround the tiny flower. Sun, great coastal plant. H 1m.
C	<i>Euphorbia martinii</i>	7cm	Martin's spurge. Greyish green foliage tipped with reddish new growth , lime green flower bracts. H 1m.
C	<i>Euphorbia martinii</i> 12cm	12cm	Martin's spurge. Greyish green foliage tipped with reddish new growth , lime green flower bracts. H 1m.
C	<i>Euphorbia var-robbae</i>	7cm	Mrs Robbs bonnet. Spreading evergreen with dark glossy foliage in tight rosettes. Long displays of lime green flowers. H 40cm.
S	<i>Fatsia japonica</i>	7cm	Glossy-leaved paper plant. Tropical looking evergreen plant with 7-9 lobed large glossy green leaves. Umbels of small white flowers. H 1-3m.
S/D	<i>Festuca 'Banks Peninsula Blue'</i>	5cm	Blue tussock. A small tussock from Banks Peninsula with fine silvery-blue foliage. The erect flowering stems reach 75cm. Very drought hardy. Prefers good drainage and full sun. H 40cm.
S/D	<i>Festuca coxii</i>	5cm	Cox's fescue. An ornamental dwarf blue tussock. Fine needles of foliage are a beautiful shade of blue green, soft flowing habit which will tolerate coastal conditions. Sun or light shade. H 30cm.
S/D	<i>Festuca glauca</i>	5cm	Blue tussock: forming a compact mounding clump of fine needle-like silver foliage. Short spikey seedheads appear mid-summer. H 30cm.
S/D	<i>Festuca 'Novaezealandii'</i>	5cm	Hard tussock, A fine-leaved tawny tussock, upright in habit.Tolerates poor soil and dry windy conditions. H 70cm.
S	<i>Ficinia nodosa</i>	5cm	Knobby club rush. Rush with injointed wire-like stems with brownish ball-like seed clusters near the top of each stem. Useful revege of wetlands. H 70cm.
S	<i>Ficinia spiralis</i>	5cm	Pingao. Stout sand binding sedge. Coarse green to orange leaves that are borne on thick stems. Dark reddish flowering stems have flowers arranged in spiral clusters up the stem. H 70cm.
S/C	<i>Fuchsia excorticata</i>	7cm	Tree fuchsia. Small tree with orange-brown papery bark and interesting twisted shape. Thin pointed green leaves white underneath, purple-red flowers early spring to summer. H 10m.
S	<i>Fuscospora fusca</i>	7cm	Red Beech. Young trees have bright-red foliage during winter. Rapid early growth.Clips well to a tall formal hedge. Suits a cool, moist, sheltered site with deep, well-drained soil. H 30m.
S	<i>Fuscospora fusca</i> 12cm	12cm	Red Beech. Young trees have bright-red foliage during winter. Rapid early growth.Clips well to a tall formal hedge. Suits a cool, moist, sheltered site with deep, well-drained soil. H 30m.
S	<i>Fuscospora solandri</i>	7cm	Black Beech. An ornamental tree, the dark green leaves complementing black bark. Upright form with tiered branches. Requires good drainage. H 20m.
S	<i>Fuscospora solandri</i> 12cm	12cm	Blak Beech. An ornamental tree, the dark green leaves complementing black bark. Upright form with tiered branches. Requires good drainage. H 20m.
S	<i>Fuscospora solandri var cliffortioides</i>	7cm	Mountain Beech. Dark green leaves with complementing dark bark. Finer leaves and smaller growing than solandri. Upright form with tiered branches. Requires good drainage. H 15m.
C	<i>Garrya elliptica</i>	7cm	Silk tassel tree. Hardy evergreen with curved dark green leaves and long silvery tassel flowers. H 2m.

C	Grevillea victoriae	7cm	Royal grevillea. Evergreen shrub, upright habit, silvery-green, willow-like foliage and terracotta-red flowers towards the end of autumn. Free-draining or sandy soils in full sun. H 3m.
C	Griselinia 'Broadway Mint'	7cm	Boardleaf. An attractive and popular clonal form of G. littoralis, upright with broad attractive, glossy, deep-green leaves, wavy edge. H 4m.
C	Griselinia 'Canterbury'	7cm	Broadleaf. Attractive dark red stems and finer rich green foliage. A clonal form of G. littoralis. Ideal for hedging. Tolerant of most conditions. Evergreen. H 5m.
C	Griselinia 'Cob Valley'	7cm	Broadleaf. Orange/red stems with glossy dark green leaves. ideal for hedging or tubs. H 3m.
C	Griselinia 'Dairy Cream'	7cm	Broadleaf. Round leaves, varigated cream with green margins. Hardy. H 2m.
S	Griselinia 'Emerald'	7cm	Broadleaf. Small tree with thick glossy rich green leaves. Gives a tropical look, but is hardy. Can be trimmed into a hedge. H 5m.
S	Griselinia littoralis	7cm	Broadleaf. A small tree with thick glossy green leaves. Gives a tropical look, but is hardy. Can be trimmed into a hedge. Tolerates coastal conditions, needs good drainage. H 4m.
S	Griselinia littoralis 12cm	12cm	Broadleaf. A small tree with thick glossy green leaves. Gives a tropical look, but is hardy. Can be trimmed into a hedge. Tolerates coastal conditions, needs good drainage. H 4m.
C	Griselinia littoralis 'Variegata'	7cm	Variegated broadleaf. Excellent dense rounded shrub. Shiny green leaves irregularly blotched or margined gold. Sun or shade. Hardy coastal plant, needs reasonable drainage. H 2.5m.
S	Haloragis erecta	7cm	Toatoa. Native perennial. Low growing spreading shrub. Green serrated foliage with reddish stems. H 1m.
S	Haloragis erecta 'Red'	7cm	Toatoa. Native perennial. Low growing spreading shrub. Striking burgandy-bronze serrated foliage. H 1m.
C	Hebe Albicans	7cm	Hebe Sussex carpet. Compact hardy bush with grey-blue leaves, stubby white flower spikes early summer. H 50cm.
C	Hebe 'Boulder Lake'	7cm	Hebe. Neat dense evergreen shrub. Masses of mauve flowers early summer. One of the best easy care hebes. Trim after flowering. H 1m.
C	Hebe 'Caledonia'	7cm	Hebe. A neat compact hebe, makes a great contrast with its pinky- red tips and small lavender flowers for months on end. Hardy and easy to grow. H 40cm.
C	Hebe canterburiensis	7cm	Hebe. Dense rounded shrub. The leaves are glossy green spear-shaped, with a yellow-green margin. White flower spikes. H 1m.
C	Hebe chathamica	7cm	Chatham Island koromiko. Evergreen prostrate rambling bushy shrub with light green thick leaves. Has lilac flowers fading to white. H 15cm.
C	Hebe cupressoides (whip cord)	7cm	Cypress hebe. Rounded, aromatic, whipcord evergreen shrub with small pale lilac flowers in spring. H 1.5m.
C	Hebe cupressoides 'Nana'	7cm	Hebe. Compact forms a perfect round ball shape. Grey-green foliage with masses of tiny white flowers in summer. H 30cm.

Source	Species	Pot Size	Item Description
C	Hebe decumbens	7cm	Hebe. Hardy low growing open shrub green leaves edged red , white flowers in dense bunches tolerates dry. H 50cm.
C	Hebe diosmifolia	7cm	Hebe. Neat and dense shrub with glossy narrow dark green leaves and smothered in white to pale lavender flowers spring. Trim as desired. Sun or light shade. H 70cm -1m.
C	Hebe diosmifolia 'Minor'	7cm	Hebe. Dwarf neat and dense shrub with glossy narrow dark green leaves and smothered in white to pale lavender flowers spring. Trim as desired. Sun or light shade. H 40cm.
C	Hebe elliptica	7cm	Shore hebe. Compact shrub with short fleshy green leaves and blue/white flowers, good coastal plant. H 1-1.5m.
C	Hebe 'Emerald Gem'	7cm	Hebe. Compact oval dome of bright green tightly packed foliage. Hardy. Sun. H 30cm.
C	Hebe 'Emerald Gem' 12cm	12cm	Hebe. Compact oval dome of bright green tightly packed foliage. Hardy. Sun. H 30cm.
C	Hebe hectorii	7cm	Bun shaped brown/green whipcord hebe tolerates exposed sites hardy 50cm
C	Hebe 'Icing Sugar'	7cm	Pink and White flowers Green leaves. H 70cm
C	Hebe 'Inverey'	7cm	Hebe. A prostrate hebe with silvery blue foliage and deep purple flowers. Prefers well drained soil and full sun. Frost hardy. Evergreen. H 10cm.
C	Hebe 'James Stirling'	7cm	Selected form of Hebe orche.
C	Hebe lewisii	7cm	Hebe. Broad glossy green spear- shaped leaves with flowers lilac, fading white in summer and autumn. H 1.5m.
C	Hebe 'MacEwanii'	7cm	Hebe. Compact, bushy hebe. The leaves are small, grey-green and narrow. Dainty pale lilac-blue flowers. Good drianage. Hardy. 50cm.
C	Hebe 'Margret'	7cm	Hebe. A compact, rounded evergreen shrub with bright green foliage and light blue flowers in short racemes in early summer, often repeating in early autumn. H 40cm.
C	Hebe odora	7cm	Boxwood hebe. Hardy, ball-like shrub with small box-like dark-green leaves. Showy, white, cone-shaped flowers. Evergreen. Frost hardy. H 1.2m.
C	Hebe odora 12cm	12cm	Boxwood hebe. Hardy, ball-like shrub with small box-like dark-green leaves. Showy, white, cone-shaped flowers. Evergreen. Frost hardy. H 1.2m.
C	Hebe odora 'Nana'	7cm	Hebe. Erect growing evergreen shrub. Shiny green leathery spear shaped leaves, white-pale mauve flowers. H 40cm.
C	Hebe odora prostrata	7cm	Carpet Hebe. Prostrate form of Hebe odora. Pale yellow/ green pointed leathery leaves. white- mauve flowers. H 10cm.
C	Hebe pauciramosa	7cm	Hebe. Small upright rounded shrub with loose habit. Green leathery spoon-shaped leaves. White flowers on short spikes. H 40cm.

C	Hebe 'Quick silver'	7cm	Hebe. Unique looking hebe has dark, nearly black, wiry limbs with very tiny silvery blue-grey leaves and purple flowers. The limbs have a very open airy habit. It is a semi-creeper. H 30cm.
C	Hebe rakaiensis	7cm	Hebe. Evergreen. Spreading habit, light green glossy foliage. White flowers. H 60cm.
C	Hebe 'Red Edge'	7cm	Hebe. Tight dome of grey-green foliage with red margins, which darken to a reddish tint in the cold of winter. Flowers are pale lilac in early summer. Evergreen. Hardy. H 60cm.
C	Hebe 'Red Edge' 12cm	12cm	Hebe. Tight dome of grey-green foliage with red margins, which darken to a reddish tint in the cold of winter. Flowers are pale lilac in early summer. Evergreen. Hardy. H 60cm.
S/C	Hebe rigidula	7cm	Hebe. Erect low growing bushy shrub with dark green leaves white flowers. H 40cm.
S/C	Hebe salicifolia	7cm	Koromiko. Hardy evergreen upright spreading habit light green leaves with long white flower spikes. H 2m.
C	Hebe 'Snowdrift'	7cm	Hebe. A bushy shrub with spear-shaped, narrow green leaves. Prolific white flowers on spikes appear in summer. H 1.5-2m.
C	Hebe speciosa 'Blue'	7cm	Hebe. Round bushy shrub with long branches and broad fleshy blunt dark green glossy leaves. Striking blue flower spikes. H 1.5m.
C	Hebe speciosa 'Flame'	7cm	Hebe. Glossy green leaves, with purple midrib and stems. Leaves become quite purple in winter. Pinkish purple flowers in autumn. H 1m.
C	Hebe speciosa 'Magenta'	7cm	Hebe. Large green leaves. Racemes of magenta coloured flowers. H 1.5-2m.
C	Hebe speciosa 'Pink'	7cm	Hebe. A beautiful shrub with large fleshy and glossy dark green leaves. Striking cerise pink flower spikes. H 1.5m.
C	Hebe 'Spring Festival'	7cm	Heliohebe. Hardy with neat rounded habit. Green serrated leaves with red tinged edges. Lilac-pink flowers. trim as required. H 85cm.
C	Hebe stricta	7cm	Koromiko north island. Long pale green leaves with long white flower spikes. Full sun. H 2m.
C	Hebe 'Sutherlandii'	7cm	Hebe. Pointed blue-grey leaved ball shaped shrub with prostrate spreading habit. White flowers. Tough and long lasting. Trim as desired. H 50cm.
C	Hebe 'Sutherlandii' 12cm	12cm	Hebe. Blue-grey leaved ball shaped shrub with prostrate spreading habit. White flowers. Tough and long lasting. Trim as desired. H 50cm.
C	Hebe topiaria	7cm	Hebe. Compact, tidy grey-green rounded foliage. White flowers. H 1-1.5m.
C	Hebe topiaria 12cm	12cm	Hebe. Compact, tidy grey-green rounded foliage. White flowers. H 1-1.5m.
C	Hebe 'Townsonii'	7cm	Hebe. Erect evergreen shrub light green narrow, spear-shaped leaves. In spring it develops white sprays of flowers with slight pale lilac shading. H 1.5m

Source	Species	Pot Size	Item Description
C	Hebe venustula	7cm	Hebe. Neat rounded habit, glossy yellow-green leaves, white flowers. Hardy. Sun or light shade. H 1m.
C	Hebe 'Waikiki'	7cm	Hebe. Spreading upright evergreen shrub, has foliage of dark green leaves with bronze-purple tips. Mauve flowers. H 1m
C	Hebe 'Waireka'	7cm	Variegated hebe. Compact bush with green/cream variegated foliage, light purple flower spikes. H 1m.
C	Hebe 'Winter Gold'	7cm	Whip cord hebe. Slow growing compact whipcord hebe yellow green foliage, white flowers. Hardy. H 40cm.
C	Hebe 'Wiri Cloud'	7cm	Hebe. Compact rounded shrub, small green leaves with light pink flowers covering the stem tips in early summer. Sun. H 40cm.
C	Hebe 'Wiri Mist'	7cm	Hebe. Attractive bush with grey-green foliage and a flat-topped habit. Prolific white flowers in late spring/early summer. Evergreen. Hardy. H 1m.
C	Hebe 'Wiri Mist' 12cm	7cm	Hebe. Attractive bush with grey-green foliage and a flat-topped habit. Prolific white flowers in late spring/early summer. Evergreen. Hardy. H 1m.
C	Hebe 'Wiri Prince'	7cm	Hebe. Bold lush green foilage, striking deep purple flower spikes. Flowers early summer. Trim after flowering. H 1.5m.
C	Hedera canariensis	7cm	Ivy. Three lobed glossy green leaves climber or groundcover. Low maintainence space filler or erosion control. H 3m.
S	Helictotrichon sempervirens	7cm	Blue oat grass. Round clump of narrow spiky steel blue leaf blades, Airy beige to light brown, terminal panicles in summer. H 50cm.
S	Hellebores Mixed RX90	9cm	Winter rose. Mixed colours, flowers early July ahead of large green leaf stems. Sun or part shade. Hardy. H 40cm.
S	Helleborus Seedlings	7cm	Winter rose. Mixed colours, flowers early July ahead of large green leaf stems. Sun or part shade. Hardy. H 40cm.
D	Hemerocallis 'Stella Bella'	7cm	Day Lily. Evergreen, compact modern form. Green strap like leaves with large golden flowers produced in great quantities. H 50cm.
S	Hoheria angustifolia	7cm	Narrow leaved lace bark. Compact, specimen or shelter tree. Narrow, toothed leaves and masses of small white flowers in summer. Juvenile form is columnar with divaricating branches. H 6m.
S	Hoheria angustifolia 12cm	12cm	Narrow leaved lace bark. Compact, specimen or shelter tree. Narrow, toothed leaves and masses of small white flowers in summer. Juvenile form is columnar with divaricating branches. H 6m.
S	Hoheria glabrata	7cm	Mountain lacebark. A spreading, deciduous tree with large shiny green leaves. Sweet scented white flowers borne in profusion in summer). Moisture loving it is best in areas of high rainfall. 6m.
S	Hoheria lyallii	7cm	Mountain ribbonwood. Hardy deciduous tree with green leaves widest at base and narrowing to point, margin with many uneven blunt teeth, creamy white flowers in summer. H 6m.
S	Hoheria populnea	7cm	Lacebark. Very fast growing small tree. Evergreen oval pointed leaves with serrated edges, Profuse white flowers in early autumn. Sun. H 8m.

Source	Species	Pot Size	Item Description
S	Hoheria sexstylosa	7cm	Long leaved lacebark. Fast growing tree with green long narrow serrated leaves and white flowers in May. Graceful weeping form. H 8m.
C	Ilex crenata 'Sky Pencil'	7cm	Japanese holly. Columnar plant. Neat upright tidy habit with small dark green leaves. Hardy. Small white flowers followed by black berries. H 3m.
C	Ilex 'Sky Pencil' RX90	RX90	Japanese holly. Columnar plant. Neat upright tidy habit with small dark green leaves. Hardy. Small white flowers followed by black berries. H 3m.
S	Juncus edgariae (gregiflorus)	5cm	Wiwi rush. Tight upright clumps with evergreen bright green stems, wetland. Hardy. Sun. H 1m.
S	Juncus pallidus	5cm	Giant rush. Large clumps of upright green stems swamp plant. Sun. H 1.5m.
S	Kniphofia uvaria	7cm	Red hot poker. Long thin green leaves with flowers bright red/orange with a touch of yellow on tall stems. H 1.5m.
C	Kolkwitzia amabilis	7cm	Beauty Bush: Deciduous shrub with arching hanging branches, pale green leaves with pink bell shaped flowers. H 2m.
S	Kunzea ericoides	7cm	Kanuka. Small tree with small, narrow, scented leaves. Attractive loose papery bark. Showy white flowers. Nelson area .H 10m.
S	Kunzea robusta	7cm	Kanuka. Small tree with small, narrow, scented leaves. Attractive loose papery bark. Showy white flowers. Duedin /CH CH area .H 10m.
S	Kunzea serotina	7cm	Kanuka. Small tree with small, narrow, scented leaves. Attractive loose papery bark. Showy white flowers. Central area .H 10m.
C	Laurus nobilis	7cm	Bat tree. The evergreen glossy green, aromatic foliage of this shrub is used as an edible herb. Fragrant yellow flowers in spring are followed by small black fruit. Suitable for topiary or hedging. H 8m.
C	Lavandula angust 'Birchwood'	7cm	English lavender. A neat compact plant of stunning silver grey foliage offset by deep purple flower spikes opening vibrant purple during summer. H 40cm.
C	Lavandula spica 'Bogong'	7cm	English lavender. Silvery foliage bark blue flowers on long stems. Hardy. H 70cm.
C	Lavender 'Alba'	7cm	English lavender. Silver/grey foliage snow white flowers highlighted by silver grey calxes. H 60cm.
C	Lavender 'Blue Mountain'	7cm	English lavender. Compact habit. Silver/grey foliage deep blue flowers. Highly scented. H 60cm
C	Lavender 'Dilly Dilly'	7cm	English lavender. Syn Grosso. Compact silver/grey foliage fragrant violet blue flowers on tall stems, tolerates dry coastal conditions. Sun. H 70cm.
C	Lavender 'Dutch White'	7cm	English lavender. Large long silvery/grey leaves with white flowers on tall stems. H 70cm.
C	Lavender 'Elizabeth'	7cm	Lavandula angustifolia 'Elizabeth dense spikes of violet flowers, with silvery green leaves. compact lavender H 45cm.

Source	Species	Pot Size	Item Description
S	Myrsine australis	7cm	Red matipou. Distinctive red branchlets with green wavy leaf margins. The white flowers and later the black fruits are in clusters below the leaves. H 3m.
S	Myrsine divaricata	7cm	Weeping mapou. A bushy shrub with an attractive weeping habit. The small, green, leathery leaves, tiny flowers in clusters, with pale yellow or red petals. Evergreen. Hardy. H 4m.
C	Myrtus 'Kathryn'	7cm	NZ myrtle. Oval, purplish- brown leaves, with a puckered upper surface. Bearing creamy-white flowers followed by purple berries. Prefers full sun. Hardy. Evergreen. H 2m.
C	Myrtus 'Red Dragon'	7cm	NZ myrtle. An upright growing shrub with small red-pink leaves, white flowers followed by red fruits. Tolerates dry conditions, shade or sun. H 2m.
C	Olearia adenocarpa	7cm	Small leaved tree daisy. Evergreen sprawling bush with small grey green leaves on grey branches. Hardy. H 1.2m.
C	Olearia arborescens	7cm	Southern tree daisy. Evergreen spreading bush with broad glossy green leaves, clusters white daisy flowers. H 2m.
C	Olearia avicenniaefolia	7cm	Mountain ake ake. Spreading shrub/small tree with sweet scented showy flowers and grey/green leaves with downy white undersides and thin papery bark. H 3m.
C	Olearia bullata	7cm	Daisy bush. Bushy shrub with angled interlacing reddish twigs with narrow grey leaves, white daisy like flowers. H 2m.
C	Olearia cheesemanii	7cm	Streamside tree daisy. A silvery green leaved shrub, covered from early spring with clusters of small white flowers with prominent yellow centres. H 2m.
C	Olearia Cymbifolia	7cm	Alpine tree daisy. Yellowish twiggy shrub bearing small thickgrey-green leaves that have a rolled in edge with white daisy flowers. H 3m.
C	Olearia dartonii	7cm	Twiggy tree daisy. Small, open-branched tree with plume-like branches and fine grey-green leaves. Upright shelter. Hedging. Hardy. H 4m.
C	Olearia macrodonta	7cm	Mountain holly. Evergreen shrub with spiny-toothed, ovate, grey-green leaves, white-felted beneath. Small fragrant white flowers are borne in large clusters in summer. H 2m.
C	Olearia nummularifolia	7cm	Tree daisy. The leaves are small, thick, oval saddle shaped and yellow-green in colour. Yellowish branches. White daisy flowers with a yellow centre. Hardy. H 1m.
C	Olearia odorata	7cm	Scented tree daisy. Bushy shrub with many erect reddish twigs bearing pale green narrow oval leaves that are white underneath tiny scented white flowers. Hardy. H 3m.
C	Olearia odorata 12cm	12cm	Scented tree daisy. Bushy shrub with many erect reddish twigs bearing pale green narrow oval leaves that are white underneath tiny scented white flowers. Hardy. H 3m.
C	Olearia paniculata	7cm	Golden ake ake. One of the best hedges withstands hard trimming. Leathery bright green crinkly oval leaves. Clusters of sweet smelling flowers in summer. Requires good drainage. H 5m.
C	Olearia paniculata 'Akiraho'	7cm	Large leaf ake ake. Very large mid green wavy edged leaves, has white densely packed flowers in summer good for hedging. Hardy. H 3m.
C	Olearia solandrii	7cm	Coastal Tree Daisy; A dense twiggy small tree which has a beautiful golden-yellow colour. Tolerates exposed conditions-sun, dry, wind and frost. Can be trimmed as desired. H 4m.

Source	Species	Pot Size	Item Description
C	Olearia traversii	7cm	Chatham island ake ake. Upright growing small tree with green leaves. The underside of the foliage is a soft silver grey. Can be hedged. Coastal, drought and wind tolerant. H 4m.
C	Olearia traversii 'Variegata'	7cm	Variegated Chatham Island ake ake. Upright small tree with varigated green and cream leaves with soft silver grey undersides. Hedging or shelter. Coastal, drought and wind tolerant. H 4m.
C	Olearia virgata lineata	7cm	Twiggy tree daisy. Densed thicket of twiggy pendulous branchlets with fine narrow light grey-green leaves. Tolerates wet and windy. Hardy. H 2m.
C	Olearia x haastii	7cm	Alpine tree daisy. Upright bushy shrub with dark shiny green spear shaped leathery leaves and small white daisy flowers. Hardy. H 1.5m.
D	Ophiopogon 'Black Dragon'	7cm	Black mondo grass. Small evergreen grass-like plant with purple-black leaves, dainty flowers of pale violet followed by shiny black berries. spacing 5 per metre. Part shade. Hardy. H 20cm.
D	Ophiopogon 'Hosoba Kukuryu'	7cm	Dwarf Black Mondo Grass. Dwarf variety with very narrow black blade-like foliage. H 15cm
D	Ophiopogon japonicus	7cm	Mondo grass. Dense low growing groundcover. evergreen long fine dark green leaves. small mauve flowers followed by blue-black berries. Clumps to form solid patches. Part shade. Hardy. H 20cm.
D	Ophiopogon japonicus 'Kyoto'	7cm	Super dwarf mondo grass. Extremely dwarf form. Evergreen with fine narrow dark green grass like leaves. Tiny white flowers in foliage followed by black berries. Part shade. Hardy. H 5cm.
D	Ophiopogon japonicus 'Nana'	7cm	Dwarf mondo grass. Mat or clump forming. Short fine grass like green leaves. Mauve flowers followed by dark berries. Part shade. Hardy. H 10cm.
D	Ophiopogon planiscapus	7cm	Mondo grass. Evergreen clumpy form. Dark green leaves, white flowers in summer followed by dark berries. Part shade. Hardy. H 20cm.
D	Ophiopogon 'Silver Mist'	7cm	Variegated mondo grass. Evergreen clump forming with narrow dark green foliage with fine white varigation has pale lavender flowers. Part shade. Hardy. H 20cm.
D	Ophiopogon umbraticola	7cm	Bad hair day mondo grass. Curly tufts of very narrow dark green blades. Small whit flowers, cobalt blue berries. H 15cm.
C	Osmanthus burkewoodii	7cm	Burkwood osmanthus. Evergreen rounded bush with glossy green leaves, tubular white fragrant flowers followed by black berries. Sun. Good drainage. H 2m.
C	Osmanthus delavayi	7cm	Delavay osmanthus. Rounded, fragrant, evergreen shrub with arching branches and small glossy dark green fine toothed leaves. Clusters of fragrant white flowers and dark berries. H 4m.
C	Ozothamnus leptophyllus	7cm	Cottonwood: Bushy shrub with small silver green leaves, stems silver/white in colour. Clusters of tiny cream daisy (wheel-shaped) flowers. H 2m.
C	Ozothamnus leptophyllus var. vauvilliersii	7cm	Mountain cotton wood. Erect evergreen bushy shrub. Whitish flowers in dense clusters, golden stems and small leathery green leaves. H 2m.
C	Pachysandra 'Green Sheen'	7cm	Japanese spurge. Evergreen spreading groundcover with very glossy green leaves, white flowers. Partial to full shade Hardy. H 15cm.
S	Pachystegia insignis	7cm	Marlborough rock daisy. Evergreen leathery leaves are olive green in colour with white furry undersides. Large, white, daisy-like flowers appear in spring. Good drainage. Sun. H 90cm.

Plants in Production

Source	Species	Pot Size	Item Description
S	Pachystegia rufa	7cm	Marlborough rock daisy. Evergreen leathery dark green leaves with rusty brown undersurfaces. White daisy like flowers in spring. Good drainage. Sun. H 80cm.
S	Pennantia corymbosa	7cm	Kaikomako. Juvenile plant is shrubby with wide angled, spreading, intertangled branches and small leaves. Adult tree is slender with thick green leaves, small scented white flowers shiny black berries. H 8m.
C	Phebalium 'Illumination'	7cm	Variegated satin wood. Evergreen fast growing upright form. Yellow margined green variegated leaves. Small white flowers. Makes for a good untrimmed hedge. H 5m.
C	Phebalium 'Limelight'	7cm	Satinwood. Evergreen tall narrow tree has green leaves with light green variegation, small white flowers. Hardy wind resistant. H 4m.
C	Phebalium squameum	7cm	Satin wood. Evergreen tree with narrow, upright growth habit. Green leaves, small white flowers. Hedging. Good drainage. H 5m.
C	Philadelphus virginal	7cm	Mock orange. Hardy, deciduous shrub with oval, dark-green leaves and strongly scented, double white flowers in mid-summer. H 3m.
S	Phormium cookianum	7cm	Mountain flax. Shiny-green wide, long weeping leaves. Drooping, twisted seed pods on long stems. H 1.5m.
S	Phormium cookianum 12cm	12cm	Mountain flax. Shiny-green wide, long weeping leaves. Drooping, twisted seed pods on long stems. H 1.5m.
S	Phormium cookianum 'Purpurea'	7cm	Red mountain flax. Evergreen with red/purple long drooping foliage. twisted seed pods on long stems. Hardy. 1.2m.
D	Phormium 'Emerald Gem'	7cm	Dwarf flax. Compact, upright form. The flax has striking emerald-green leaves forming a small bushy clump. Hardy. H 70cm.
D	Phormium 'Jack Spratt'	7cm	Ornamental flax. Tight, erect clumps of olive to cocoa- brown, twisted leaves. Tolerates damp to dry soil, sun or light shade, frost hardy. H 1m.
D	Phormium 'Jack Spratt' 14cm	14cm	Ornamental flax. Tight, erect clumps of olive to cocoa- brown, twisted leaves. Tolerates damp to dry soil, sun or light shade, frost hardy. H 1m.
D	Phormium 'Surfers Green'	7cm	Ornamental flax. Tight erect clumps of green edged bronze twisted leaves. Very hardy and adaptable. Tolerates sun or shade, wet or dry. H 70cm.
D	Phormium 'Surfers Green' 14cm	14cm	Ornamental flax. Tight erect clumps of green edged bronze twisted leaves. Very hardy and adaptable. Tolerates sun or shade, wet or dry. H 70cm.
S	Phormium tenax	7cm	Flax. Large upright clumps with long bluish-green strap like leaves long, flower spikes. Very hardy, will tolerate most situations, wet or dry. Flowers good for birds. H 2.5m.
S	Phormium tenax 'Purpurea'	7cm	Red flax. Purplish upright clumps of strap like leaves, tall flower spikes. Sun or light shade, wet or dry. H 2m.
S	Phormium tenax 12cm	12cm	Flax. Large upright clumps with long bluish-green strap like leaves long, flower spikes. Very hardy, will tolerate most situations, wet or dry. Flowers good for birds. H 2.5m.
C	Photinia 'Red Robin'	7cm	Photinia. Bright-red growth tips on a compact evergreen, lush green shrub. Small white flowers in spring. Excellent hedging plant. Hardy. H 4m.

Source	Species	Pot Size	Item Description
C	Photinia 'Robusta'	7cm	Photinia. Evergreen with large green leaves and bright red new growth early spring. Hardy. H 4m.
C	Pimelea 'Blue Peter'	7cm	NZ daphne. Groundcover with very small grey/blue pointed leaves and tiny white flowers. H 5cm x 50cm.
C	Pimelea Prostrata	7cm	NZ DaphneGroundcover with very small round grey/blue leaves and tiny white flowers. H 10cm x 1m .
S	Pittosporum crassifolium	7cm	Karo. Dense dark grey-green leathery leaves that are furry underneath. Heavily scented purple flowers spring. Intolerant of severe frost and wet sites. Coastal and drought tolerant. H 5m.
S	Pittosporum eugenioides	7cm	Lemonwood. Long wavy leaves yellowish when young, turning dark green as the plant ages. pale yellow flowers spring, lemon scented. Good drainage. Intolerant of severe frost. H 5m.
C	Pittosporum eugenioides 'Variegata'	7cm	Variegated lemonwood. Erect evergreen bushy small tree with wavy pale green leaves margined creamy white, small fragrant pale yellow flowers in summer. H 5m.
C	Pittosporum 'Gold Star'	7cm	Pittosporum. Star-like pattern on gold and green leaves with wavy margins, edged green and yellow with creamy white midribs. A very compact and ornamental evergreen. H 2m.
C	Pittosporum 'Limelight'	7cm	Pittosporum. One of the best variegated pittosporums. A vigorous grower with yellow and lime green foliage. Hardy. H 3m.
C	Pittosporum 'Mountain Green'	7cm	Pittosporum. Vigorous, dense small tree with outstanding fresh green foilage. Small scented purple flowers spring. Can be trimmed. H 4m.
C	Pittosporum 'Pixie'	7cm	Pittosporum. Tightly compact tiny leaves in light grey-green with purple tones. great for trimming and pots. Hardy. H 1m.
S	Pittosporum ralphii	7cm	Ralph's kohuhu. Rounded, bushy habit and large, dark-green leaves which are white underneath. Scented white flowers, large round seedpods. Good shelter on dry, windy sites. Tolerates shade. H 5m.
C	Pittosporum 'Silver Sheen'	7cm	Pittosporum. Fast growing evergreen with dark brown - black stems that are covered with small rounded silvery green leaves. Great for screening or low shelter. Hardy. H 3m.
C	Pittosporum 'Stephens Island'	7cm	Pittosporum. Dark green leaves with a light felty margin. Small purple flowers spring, strongly scented. Can be trimmed as desired. Hardy. H 4m.
C	Pittosporum 'Stephens Island' 12cm	12cm	Pittosporum. Dark green leaves with a light felty margin. Small purple flowers spring, strongly scented. Can be trimmed as desired. Hardy. H 4m.
C	Pittosporum 'Tandara Gold'	7cm	Pittosporum. Slender erect narrow pyramidal form with black branches and stems. Small leaves are prominently splashed gold. Scented purple flowers in spring. easily trimmed to any shape or hedge. H 3m.
S	Pittosporum tenuifolium	7cm	Black matipo. A hardy alpine form of this small tree. Dense, with crinkely fresh green leaves. Strongly scented small purplish flowers in summer. Tolerates most situations. H 4m.
S	Pittosporum tenuifolium 12cm	12cm	Black matipo. A hardy alpine form of this small tree. Dense, with crinkely fresh green leaves. Strongly scented small purplish flowers in summer. Tolerates most situations. H 4m.
S	Pittosporum tenuifolium colensoi	7cm	Black Mapou. Evergreen. Oval, green, leathery leaves with paler underides, strongly scented purple flowers spring. Can be trimmed to size and shape. Tolerates some wet. Hardy. H 4-10m.

Plants in Production

Source	Species	Pot Size	Item Description
C	Pittosporum tenuifolium 'Varigatum'	7cm	Variegated pittosporum. Evergreen with oval leaves which are grey-green with irregular but neat creamy white margins. Bushy and hardy. H 3m.
C	Pittosporum 'Victoria'	7cm	Variegated pittosporum. Evergreen compact upright shrub with pale silvery green leaves that are edged in white which become tinged with dark pink in colder weather. Hardy. H 3m.
C	Pittosporum 'Waimea'	7cm	Pittosporum. Evergreen shimmering leaves are glossy oval jade green leaves, lighter beneath with light green stems. Dark maroon flowers in spring. Hardy. H 3m.
C	Pittosporum 'Wrinkle Blue'	7cm	Pittosporum. Evergreen. Pyramidal shape fast growing with dense wavy silver blue-green foliage, dark stems. Trims well. Hardy. H 3m.
S	Plagianthus divaricatus	7cm	Shore ribbonwood. Dense tangled shrub with silvery stems and small green leaves. Salt and wind resistant & tolerant of wet, swampy soils. Small scented cream flowers. Great trimmed hedge or low shelter. H 2m.
S	Plagianthus regius	7cm	Ribbonwood. Fast growing deciduous tree. Small, divaricating, juvenile foliage is replaced by larger birch-like adult foliage. Green leaves with showy cream flowers early spring. Hardy, tolerates quite damp conditions. H 10m.
S	Poa astonii	5cm	Blue shore tussock. Densely tufted, fine blue/green foliage. Coastal, grows well in exposed conditions with heavy winds and salt spray. It also thrives in low alpine sites. Hardy. H 35cm.
S	Poa cita	5cm	Silver tussock. Evergreen fast-growing, densely tufted, tawny-green tussock. Very fine foliage with feathery flower heads in summer. Looks great in mass. Hardy. H 70cm.
S	Poa colensoi	5cm	Blue tussock. Tight dense clumps of narrow blue grey leaves. Feathery flower stems are held over the leaves in late spring. Tolerant of some drought and poor soils. H 60cm.
S	Podocarpus totara	7cm	Lowland totara. Slow growing forest tree with stringy bark and leaves that are a very dark green-brownish colour and are linear and sharp pointed. H 30m.
S	Podocarpus totara 2.5L	2.5L	Lowland totara. Slow growing forest tree with stringy bark and leaves that are a very dark green-brownish colour and are linear and sharp pointed. H 30m.
C	Podocarpus totara 'Aurea'	7cm	Golden totara. Graceful branches, soft and rich golden-yellow leaves, especially when grown in full sun, with tall, pyramidal form. Dislikes wet conditions. Makes a superb hedge. Evergreen. Hardy. H 6m.
C	Podocarpus totara 'Paradise'	7cm	Totara. Variegated white/golden selection from halli. Hardy. H 1.5m.
S	Podocarpus totara RX90	RX90	Lowland totara. Slow growing forest tree with stringy bark and leaves that are a very dark green-brownish colour and are linear and sharp pointed. H 30m.
C/D	Pratia angulata	7cm	Panakenake. Fast growing, evergreen, ground cover with green leaves. Prefers damp, semi-shaded situation. White flowers followed by pink-red berries. H 10cm x 1m.
S	Prumnopitys ferruginea	7cm	Miro. H 25m
S	Prumnopitys taxifolia	7cm	Matai. Black pine. H 40m
S	Prunus laurocerasus	7cm	Cherry laurel. Large glossy green leaves, dense habit make this adaptable plant an excellent small tree or hedge. Simple white flowers, glossy black fruits. Hardy. H 6m.

Source	Species	Pot Size	Item Description
C	Prunus lusitania 'Variegatum'	7cm	Dark green leaves with narrow white margin 5m
S	Prunus lusitanica	7cm	Portugese laurel. Evergreen broadly-spreading tree with glossy dark-green leaves, small cream flowers in spring on red twigs followed by black berries. A good screening, hedging and standard plant.Hardy. H 5m.
S	Prunus lusitanica 14cm	14cm	Portugese laurel. Evergreen broadly-spreading tree with glossy dark-green leaves, small cream flowers in spring on red twigs followed by black berries. A good screening, hedging and standard plant.Hardy. H 5m.
S	Pseudopanax colensoi	7cm	Mountain Five Finger: Sub alpine form of five finger, fleshy green leaves, cream/green, heavy-scented flowers and small black compressed fruit on large sprays below the leaves. H 4m.
C	Pseudopanax 'Adiantifolius'	7cm	Hybrid houpara. Distinctive 3 lobed rich leathery glossy green leaves. Tolerant of wind and drought and light frosts. H 3m.
S	Pseudopanax arboreus	7cm	Five finger. Evergreen small bushy tree with glossy green fleshy toothed leaves arranged in fans of 5 leaflets. Fruit purple, in obvious clusters. H 6m.
S	Pseudopanax crassifolius	7cm	Lancewood. Evergreen round-headed tree with straight, clean trunk when mature. Wind resistant. Long upright juvenile phase with long descending dark-green leaves.Frost tender when young. H 12m
C	Pseudopanax discolour 'Purpurea'	7cm	Pseudopanax. A hybrid from the New Zealand five finger, branching out from low down on the plant. Bronze to chocolate colouredn new growth becoming more intense with frosts and sun. H 5m.
S	Pseudopanax ferox	7cm	Fierce lancewood. Evergreen. A spectacular slow-growing specimen with leathery narrow, saw-like brown juvenile leaves. Becomes a bushy-topped tree with a tall, slender trunk. Purple fruit. H 5m.
S	Pseudopanax laetus	7cm	Five finger. Evergreen shiny broad leaves on red stalks. uClusters of purple berries . Tropical appearance. Tolerates wind, exposure and shade. H 4m.
C	Pseudopanax Rangitera	7cm	Pseudopanax. Low growing evergreen shrub with glossy red/brown foliage that is darker in Winter. H 1m.
C	Pseudopanax 'Sabre'	7cm	Pseudopanax. This great screening plant has dark green, long, thick, leathery lance-shaped leaves with a yellowish-orange midrib. Ideal in all soil conditions. Sun to semi-shade. Hardy. H 3m.
S	Pseudowintera colorata	7cm	Pepper tree. Evergreen light-green, elliptical leaves is often spotted with red, undersides are a blue-grey colour. Tiny green/white flowers followed by black berries. H 2m.
D	Raoulia hookeri	7cm	Scabweed mat daisy. Mat forming groundcover with rosettes of tiny silvery-grey leaves, small yellow-green flowers. H 5cm.
C	Raphiolepis ind. 'Enchantress	7cm	Indian hawthorn. Evergreen. Dome shape with leathery glossy dark green leaves. Rose pink flowers, blue -black berries Can repeat flowering in Autumn/Winter if warm enough. H 2m.
C	Raphiolepis umbellata	7cm	Indian Hawthorn. Evergreen, dense round habit with broad oval glossy dark green leaves. Fragrant white flowers, small blue -black berries. Attractive to birds. Full sun. H 1.5m.
C	Rosmarinus officinalis	7cm	Rosemary. Upright evergreen perennial herb with aromatic green needle like leaves and mauve flowers. Can be used in cooking. Hardy. Sun. H 1.5m.
C	Rosmarinus prostrata	7cm	Prostrate rosemary. Evergreen dense groundcover, green needle like leaves and blue flowers, excellent for trailing over walls or steps. Hardy. H 30cm x 1.5m.

Plants in Production

Source	Species	Pot Size	Item Description
C	Sarcococca confusa	7cm	Sweetbox. Evergreen densely bushy shrub, with deep green glossy leaves. Small cream flowers in winter are fragrant, followed by black ornamental berries. Dry shady spots. Hedging. Hardy. H 1.5m.
S	Schefflera digitata	7cm	Seven finger. Evergreen small open branch tree. The soft thin sharply serrated leaves may have three to nine leaflets. Masses of small purple coloured fruit late autumn. Requires shelter. H 8m.
S	Schoenoplectus tabernaemontani	5cm	Lake club rush. Evergreen thick blue-green stems with brown flowering seed heads. Creeping rhizomes. Stays upright and green all year round. Use in water treatment, wetland. H 1.5m.
C	Skimmia japonica (Female)	7cm	Japanese skimmia. Compact evergreen shrub with broad ovate green leaves. Fragrant white flowers in spring, followed bright red berries if male and female are planted. Shade and coastal conditions. H 1m.
C	Sophora 'Dragons Gold'	7cm	Kowhai. Low-growing evergreen native kowhai, prolific deep-yellow flowers, almost hidden in the foliage in winter. Hedging, containers. Hardy. H 2m.
S	Sophora microphylla	7cm	South Island kowhai. Hardy semi-deciduous tree with fern like green foliage, masses of yellow flowers attract birds in spring. Hardy. H 5m.
S	Sophora microphylla 12cm	12cm	South Island kowhai. Hardy semi-deciduous tree with fern like green foliage, masses of yellow flowers attract birds in spring. Hardy. H 5m.
S	Sophora prostrata	7cm	Dwarf kowhai. Dense, tangled wiry shrub with sparse green foliage and hidden yellow flowers in late spring. Semi-deciduous. Very hardy. H 2m.
S	Sophora prostrata 12cm	12cm	Dwarf kowhai. Dense, tangled wiry shrub with sparse green foliage and hidden yellow flowers in late spring. Semi-deciduous. Very hardy. H 2m.
S	Sophora tetraptera	7cm	North sland kowhai. Upright vase-shaped form, larger green foliage, semi deciduous and large golden bell-shaped flowers early summer. Hardy. H 5m.
S	Sophora tetraptera 12cm	12cm	North sland kowhai. Upright vase-shaped form, larger green foliage, semi deciduous and large golden bell-shaped flowers early summer. Hardy. H 5m.
S	Spinafex sericeus	7cm	Kowhangatara. Native sand dune stabilizing perennial grass that is greyish-green of colour with a hairy surface. Its rhizomes grow into long runners. Ball-like seed head of spikelets that detaches at maturity. H 30cm.
C	Taxus baccata	7cm	English yew. Used for hedging and topiary. Has fine dark green foliage that is well suited to shaping and trimming. Prefers free-draining soils. Evergreen. H.4m.
C	Taxus baccata 'Fastigiata'	7cm	Irish yew. Upright columnar dense evergreen with fine dark green foliage, female form has coral- red seed cones. H 4m.
C	Taxus baccata 'Fastigiata Aureomarginata'	7cm	Golden irish yew. Upright columnar form with green, glossy, needle-like foliage that glows golden yellow at the tips giving warm gold appearance. Red berries. Hardy. H 4m.
C	Teucrium fruticans	7cm	Shrubby Germander. A vigorous, dense shrub with grey leaves and powder blue flowers summer to autumn. Hardy, excellent for hedging. H 2m.
C	Teucrium Parvifolium	7cm	Teucrium. Compact ssemi deciduous small leaved shrub with dull green leaves and orange branchlets. Masses of white fuchsia like flowers. Tolerates poor, dry soils. Hardy. H 2m.
C	Thuja occidentalis	7cm	Thuja. Evergreen upright pyramidal tree with rounded growth habit. dark green foliage with bronze winter colouring. Hardy. H 8-10m.

Plants in Production

Source	Species	Pot Size	Item Description
C	Thuja occidentalis 'Pyramidalis'	7cm	Thuja. Erect columnar conifer with deep green spray like foliage, gradual change to bronze tones in Winter. Hardy. H 4m.
C	Thuja occidentalis 'Smaragd'	7cm	Emerald cedar. Compact conical form of tight evergreen bright emerald-green branchlets. Great specimen tree. H 3m.
C	Thuja occidentalis 'Smaragd' 12cm	12cm	Emerald cedar. Compact conical form of tight evergreen bright emerald-green branchlets. Great specimen tree. H 3m.
C	Thuja plicata 'Old Gold'	7cm	Cedar. A fast growing evergreen tree with very attractive rich yellow foliage in summer changing to deep old gold in winter. Hardy. H 4m.
C	Trachelospermum jasminoides	7cm	Star jasmine. Self-twining climber with glossy green leaves, colouring to bronze-red in winter cold and highly fragrant jasmine-like white flowers. Useful as low growing shrub also. Semi hardy. H 3m.
S	Typha orientalis	7cm	Raupo. Vigorous erect pale green grass like leaves with large furry brown cylindrical seed heads. Wetland. Sun. H 2m.
C	Ugni molinae (NZ Cranberry)	7cm	Chilean guava. Small compact evergreen shrub. Small leathery leaves, pink flowers & bright red fruits on stalks. Very aromatic. Ornamental or hedge. H 2m.
D	Uncinia unciniata	7cm	Hook sedge. Dense mounds of narrow grass like green arching leaves. Black seed heads. H 50cm.
D	Uncinia unciniata rubra	7cm	Hook sedge. Reddish brown grass like arching leaves in dense clumps, black seed heads. best in a shady position. Compact. H 25cm.
C	Veronica 'Oxford Blue'	7cm	Veronica. Prostrate spreading evergreen plant with small green leaves/purple tinge, prolific flowering with vibrant blue white flowers. H 15cm.
C	Viburnum bodnantense 'Dawn'	7cm	Viburnum. Red buds opening to pink fragrant flowers fading to white. Flowers on stems in winter before ovate toothed dark green leaves, burnished bronze foliage in autumn. Deciduous. H 2m.
C	Viburnum burkwoodii	7cm	Viburnum. Richly fragrant, waxy, white spring flowers that open from pink buds. Dark green leaves. Semi evergreen. Hardy. H 2.5m.
C	Viburnum davidii	7cm	Viburnum. Compact shrub which forms a wide spreading mound. Dark green, veined leathery leaves, flowers are white followed by small blue egg-shaped fruits. Male and female plants needed for berries. H 1.5m.
C	Viburnum davidii 12cm	7cm	Viburnum. Compact shrub which forms a wide spreading mound. Dark green, veined leathery leaves, flowers are white followed by small blue egg-shaped fruits. Male and female plants needed for berries. H 1.5m.
C	Viburnum 'Emerald Beauty'	7cm	Viburnum. Densely-foliaged shrub, darkish green leaves, reddish stem, dark buds, white fragrant flowers in spring and autumn. Hedging, under-planting. Dry and shade tolerant. Evergreen. Hardy. H 1.5m.
C	Viburnum japonicum	7cm	Viburnum. Evergreen with glossy green leaves, purple tinge. Fragrant white flowers, red autumn berries. H 2m.
C	Viburnum opulus 'Sterile'	7cm	Snowball tree. Deciduous shrub, produces large white pompoms of flowers in spring. Green maple-like leaves turn intense purple in autumn. Hardy. H 3m.
C	Viburnum tinus	7cm	Viburnum. A very hardy, dense shrub which naturally holds its green foliage right to the ground. Flowers white, from pinkish buds. Tolerant of most conditions. Can be trimmed. H 3m.

Source	Species	Pot Size	Item Description
C	Viburnum tinus 'Eve Price'	7cm	Viburnum. Compact evergreen shrub with glossy green leaves and masses of pink tinged white flowers. Very hardy, can be trimmed. H 2m.
C	Viburnum tinus 'Lucidum'	7cm	Viburnum. Glossy dark green leaves, red stems and white flowers with pink buds throughout winter. Tolerant of wind, drought, frost and saline soil. Hardy. H 3m.
C	Viburnum tinus variegatum	7cm	Viburnum. Evergreen shrub with glossy dark green leaves edged with a creamy-yellow margin. Pinkish leaf stalks. White flowers. H 3m.
C	Weigela florida	7cm	Weigela. Spreading, dense, rounded shrub. Arching branches with age. Green foliage, Red buds fading to funnel shaped rose pink white flowers. Deciduous. H 2m.
C	Weigela florida "Variegata"	7cm	Weigela. Compact variegated deciduous shrub with mid-green leaves and white margins trimpet shaped rose pink flowers. Sunny position, frost hardy. H 2m.
C	Weigela 'Newport Red'	7cm	Weigela. Small serrated, elliptical green foliage. Funnel shaped flowers pink-red. Deciduous, Hardy. H 1.5m.
